

## **Single Game Goalie Records Added to KVHA Record Book**

**Kent Valley Ice Centre, Kent, WA. July 25, 2011** – A KVHA member recently asked why we didn't post goaltender records in the KVHA Record Book. Good question, I thought! So, I checked other hockey record books to see what kind of goaltending records were kept. It turns out that our score sheets don't have the capacity for recording the statistics necessary to be able to track most goaltending records. In fact, many of our score sheets don't even include shots-on-goal and saves. Some, don't even record the goaltender's jersey numbers.

However, all that said, I searched through our archive of score sheets and compiled the data for one specific single game goaltending record; Most Shots Faced in a Single Game and Most Shots Faced in Two Consecutive Games. The record goes to Breyton deFrance a goalie with the 2005/2006 Midget Tier-II Selects. Breyton faced 79 shots in a game with Puget Sound U-18 team on January 15<sup>th</sup>, 2006. Puget Sound won the game 6 to 0. Breyton stopped 73 of those 79 shots for a save rate of 92.4%.

Breyton also holds the record for Most Shots Faced in Two Consecutive Games. He faced 72 shots on January 14<sup>th</sup>, 2006, against Puget Sound U-18 for a total of 151 shots in two consecutive games.

Below are all the results by age division:

## ***Quote of the Day!***

### ***The True Meaning of Winning the Cup:***

*"As a kid out on the street I played many, many times for a fake Stanley Cup, so when I finally got to win the real thing it was an incredible feeling. I had always dreamt about it but never really believed it would ever happen to me. I was a rookie back in '86 when we won that first one, and I will never forget it."*

**Patrick Roy, Stanley Cup winning Goaltender with Montreal 1986 and 1993, and Colorado 1996 and 2001.**
