Stars of Tomorrow – Player Profile: Taylor Vickerman

Story by Dan Sallows - Taylor Vickerman is quickly cementing his reputation as one of the top American-born players eligible for the 2011 WHL Bantam Draft. The captain of the Kent Valley Rainiers Bantam Tier I team is blessed with size at 5-foot-11, 170-pounds, and an abundance of skill that has seen him rack up 6 goals, 5 assists and a plus-11 rating through his clubs first 7 games this season. The 14-year-old power forward was lights out in early October at the Seafair tournament, leading his team to a 3rd place finish, while potting 4 goals and 3 assists in 5 games. Vickerman has an uncanny ability to consistently beat d-men wide using a combination of speed and power, as well as direct numerous quality shots on goal. He is a good skater, has nice hands, excellent hockey IQ, is very versatile, a solid two-way player, and makes life difficult for defenders as he is basically

immovable while in front of the crease. Last summer, Taylor was ranked as the No.1 player in the state of Washington, was selected to play in a USA Hockey National Select Camp in Ohio, and attended the Global Showcase in Las Vegas. The kid is an absolute blue chip prospect, with a great work ethic, and has all the potential to be a very solid player in major junior and beyond.
